PROJECTS

Personal Portfolio Website :

📅 February 2023

- Designed and developed a personal portfolio website showcasing my web development skills using **HTML, CSS, and JavaScript**.
- Implemented a **responsive** design for optimal viewing on different devices, including desktops, tablets, and mobile devices.
- Implemented contact forms and resume download feature for potential clients or employers to connect and review my work.

Student Grade Calculator :

📅 January 2023 - February 2023

- It is an console based application in java
- Student can Register and Login
- Student can reset password
- Student can Enter his marks in different Subjects and generate Gradecard
- Result can be seen in Percentage, Grades, Pass/Fail

Smart Vehicle System:

📅 August 2022 - November 2022

- In this project, we made SRS with all the relevant data and research about the smart vehicle system.
- Then we made ER model and corresponding Relational model and then Normalize it.
- In the end, We loaded in our PostgreSQL, made different queries, and run it on our database..
- **Guide:** Dr.Minal Bhise
